HIGH-END US SEMINAR

Radiologists for radiologists

www.odisee.be/ae

High-end US seminar: radiologists for radiologists

During this two-day sonography course for radiologists we offer you seminars and practical training with models. This course is the perfect opportunity to enhance and update your knowledge and skills in sonography. Radiology experts will share their best practices via theoretical courses, live demonstrations, pathology...

Aim of the course

- Personal training of all anatomic structures of the upper limb in detail.
- Teaching standard examination and reference images.
- Teaching normal variants and accessory muscles.

Target audience

This seminar is designed for radiology consultants, registrars and trainees.

Organisation

- Faculty: Prof Ph. Peetrans and Dr. J. Veryser
- Equipment: Canon Medical Systems NV
- Logistical and faculty support: Odisee Advanced education, IMAGO training center
- Hands-on models: Students bachelor Medical imaging Odisee

All equipment is provided by Canon Medical Systems Belgium, high-end Aplio US technology.
